

Summer is quickly approaching!

“The research is clear that children who don't read during the summer can lose up to three months of reading progress and that loss has a cumulative, long-term effect” (readingrockets.org).

“Young readers who don't continue to read over the summer especially those who are reluctant or at-risk are likely to lose crucial ground. One summer off can sometimes mean a whole school year of struggling academic performance” (McGill-Franzen and Allington 2003).
